

Hello Megan,

Based on today's peer revision in class, I believe that one detail I would like to expand on is the divergent views on the Black Lives Matter movement between Ghost Squad and Anonymous. My peer reviewer believed that this topic is particularly supportive of my thesis and the general flow of my essay. My thesis, so far, is that Anonymous is a large entity that has benevolent intentions in many circumstances, however its size and combination of varied, and sometimes contrasting, opinions leads to inefficiency and conflict within the group.

I hope that by expanding on this idea as a theme for the rest of my essay, I can deliver a strong point that describes the benefits, but mainly problems, of Anonymous' secretive nature.

Sincerely,
Bryan Quinonez
